

SEDC 2014

Chantilly, VA & Fairfax, VA | April 3-5

Highlighted SEDC 2014 offering:

- **World Class Keynotes:** discussing the role and effect systems engineering has at their organizations
- **70 Presentations & Panels:** on topics including Model-based Systems Engineering, Agile Systems Engineering, System of Systems Engineering, and Systems Engineering for Emerging Technology
- **Tutorials:** learn from the experts on new ways to improve your systems engineering skills
- **Earn Professional Development Credits:** INCOSE members can earn up to 20 PDU Credits, half of the yearly required amount
- **Great Value:** at a cost of under a third of other systems engineering conferences, SEDC 2014 is the leader in providing value to the systems engineering community
- **Locations:** Keynotes, Presentations, and Panels at Westfields Marriot Washington Dulles, Chantilly, VA (Thursday and Friday), Tutorials at George Mason University, Fairfax, VA (Saturday)

Don't miss out on the Premier Systems Engineering Event in DC

SEDC 2014 is a continuation of one of the largest U.S. based systems engineering conference in 2012 (SEDC 2012). SEDC is ideal for systems engineers, project managers, and professionals interested in learning more about systems engineering.

Make sure to register before March 15th to take advantage of the early ticket price of **\$299**. Alternative registration options (1 day price [**\$199**], tutorial only, and full registration prices) can be found on the website.
